How do I access my courses from my mobile device?

This document provides a step by step guide to assist you in downloading and accessing Blackboard Mobile from a mobile device.

1. From your mobile device, access your mobile application store and search for the Blackboard Mobile Learn application or scan the appropriate QR code below. Then download and install Blackboard Mobile Learn.

2. After accessing the application, type in FORTIS Online, and select it to enter the site.

3. After selecting FORTIS Online, you will be taken to the login option page; click on the appropriate link depending if you are a Fully Online Student (all courses are taken online) or a Hybrid Student (some courses taken online, some on campus).
4. After selecting the appropriate link, you will be taken to the student portal; click on the Student Portal Homepage link. Note: This part of the application utilizes the same “full site” that you would normally use to access your online courses.

**Launch the CampusVue Portal**

5. Enter the same username and password that you use when accessing the student portal from your PC then click login. Note: Depending on your particular mobile device you may have to scroll to view the login button.

6. Click on the Go to Class link near the top right corner of the web page. Note: Depending on your particular mobile device you may have to scroll to view the Go to Class link.

7. You will now be taken to the Blackboard Mobile application where you can access your current courses. Choose the course you wish to access.
8. Once inside of the course you can view announcements and participate in discussion questions. Note: Some features may not be accessible on certain devices at this time.
